

## Back to the Future 8 – 360° Aerial Imaging

21. June 2015

**The patented V-form octocopter AscTec Falcon 8 since ever provides one unique feature: Free 360° view. PHT Airpicture uses that function like no other to perfectly comply with customer's demands.**

### **Aerial imaging & incredible perspectives**

In many years of UAV / drone servicing our customer PHT Airpicture established a wide repertoire of aerial high-quality imaging in filming, photography and photogrammetry. Cylindrical, spherical and 360° panoramas can be produced quite simple, due to an automatic image series, which can be started promptly pushing a button. A skilled team of pilots, photographers and film people around Peter Smiatek shuttle between Germany and Mallorca. Always in his luggage: An AscTec Falcon 8.

### **The UAV 360° panorama experience**
